

PROMENADE OF LORD ROBERTS.

His Reception in Pretoria More Enthusiastic Than Anticipated.

NO SERIOUS RESISTANCE.

Boys Carried Their Guns to the Mountains—No Further Serious Fighting Expected.

[Early Dispatches.]

London, June 6, 1900. A. M.—Lord Roberts telegraphed to the war office as follows:

Pretoria, June 5, 5:35 p. m.—The occupation of the town passed off most uneventfully and the British flag is now hoisted on top of the government offices. The troops met with a much more enthusiastic reception than I anticipated. The third battalion of the Grenadier guards lined the square when the march past took place.

Owing to their having been on duty at some distance around the town, very few cavalry and infantry were able to take part in the ceremony.

Several of our officers who had been prisoners were among the onlookers.

New York, June 6.—A dispatch to the Times from London says:

The promenade from Pretoria to the mountains was ended yesterday after a series of maneuvers, rather than a description of this engagement.

It helps thereby to dignify the entry of the British troops into the capital. The Boers have a hollow ring, and it is not clear that the resistance offered by the Boers was serious.

The Boers, when attacked by the mounted infantry and the regulars, fell back upon a position in the mountains, where they had concealed several guns. The naval guns and the batteries of artillery moved up with the infantry brigade behind them and the British retired. The Boers then made a dash to turn the left flank of the British army, but they were thwarted by Gen. Hamilton's column of mounted infantry filled the gap. The Boers retreated, and Lord Roberts followed after them.

After the Boers' retreat, the British entered Pretoria yesterday afternoon, the leading way. The casualties were not heavy and the engagement was a series of maneuvers on foot.

Without serious fighting, the British entered the town.

Lord Roberts was embarrassed by the Boers' enterprise last week in the city of Pretoria.

It could be entered by the British troops, and he was deprived of the right of forcing his way into the Boer capital since the eagerness of the officials to surrender.

When he was not prepared to surrender, he was waiting six days he gave the Boers time to recover from their defeat and to make some show of resistance.

The account of the day's engagement and Tuesday's march is better reading for each side in the city of Pretoria.

The credit for making a first-class march with a strong body of cavalry, and the Boers time to recover from their defeat and to make some show of resistance.

The bright days come, the bright days go, and each brings forth some new delight. Good health and happiness to those who brew their favorite tea aright.

Pride of Japan (Tree) Tea

A favorite in your section for 25 years.

to the thirteenth battalion of the imperial yeomanry. The message is as follows:

Pretoria Station, June 5, 12:55 p. m.—I regret that the thirteenth imperial yeomanry had to surrender to a very superior force of the enemy, on May 31, near Lindley.

On receiving information of the battalion being attacked, I ordered Methuen to proceed with all speed to its assistance. Methuen was then on the march, on the Helibron side of Kroonstad, and half an hour after the receipt of my telegram on June 1, he started off. By 10 a. m. of the following day he had marched forty-four miles in twenty-five hours, but he was too late to rescue Colonel Spragg's yeomanry. Methuen attacked the Boers, who were between 2,000 and 3,000 strong, and after a running fight of five hours, completely routed the enemy.

It is a very regrettable circumstance, but I trust it will not be very long before the Irish yeomanry are released from captivity.

Education in the Philippines.

Chicago, July 6.—Dr. Fred W. Atkinson, recently appointed superintendent of public instruction in the Philippines, is in Chicago. He was principal of the high schools of Springfield, Ohio, for several years, and was appointed to his present post on the recommendation of the president of Harvard University.

The Philippine commission will be in direct control of his movements, but owing to his recognized ability in the education field he will be given all latitude possible in order to bring about reforms sought by the administration.

"The education problem in the Philippines," said Dr. Atkinson at the Auditorium last night, "is most complex. I would not care to outline a plan until I have arrived on the ground and studied the situation. So far as I have been able to learn the people of the islands are apt and eager to learn, but I am convinced that some special course of study will have to be introduced. From advice which I have received from Manila, I learn that Father McKinnon, a former chaplain in the U. S. army, has established several schools, and \$40,000 has been spent in the purchase of text books. As nearly as I can learn 5,000 Filipino children are attending the schools in Manila alone. I believe that our policy should be aggressive and at the same time conciliatory, and in all probability we shall be obliged to devise special educational courses to meet the conditions existing in the islands. American history must be interwoven with the history of the Philippines so that the natives may have a clear understanding of the objects of our government in those islands."

Dr. Atkinson will leave for San Francisco today, and expects to remain in the Philippines for several years at least.

Appeals to the President.

Chicago, June 6.—Judge Niles of the "District of Lake Michigan," and Captain Streeter, the founder of the "district," have both announced they will not recognize the jurisdiction of the federal court of Illinois.

They will do business only with President McKinley or the U. S. courts. "Chief Justice" Niles of the "District of Lake Michigan" addressed a long letter today to the President, declaring his grievances and asking for relief. Niles is in a cell in the county jail. He has not attempted to give bonds. He has asked the President to order the release of himself and his associates. In his appeal argues the justice of the contention that the county of Cook has no jurisdiction over the territory along the Lake Shore which is under dispute.

The St. Louis Fair.

St. Louis, Mo., June 6.—The passage of the Louisiana purchase measure by Congress has kindled strong local interest in the enterprise. Numerous efforts to increase subscriptions and make the fair a success have been made. The spirit manifested is of the most encouraging character, and indicates that the completion of the last million of the local fund will be a great deal easier than at one time thought.

American Cattle for Japan.

San Francisco, June 6.—Japan is seeking American and European cattle to introduce among native herds and improve the general stock on the islands. Four Japanese government officials especially commissioned to select and purchase the stock have arrived here. They will inspect the herds of this State before going east and to Europe. They propose to get the best grades of breeding stock left.

Soldier Left a Fortune.

CONDEMNATION OF IDAHO RIOTERS.

House Committee Commends Gov. Steunenberg's Action.

APPROVES THE PRESIDENT.

Suppression of the Coeur d'Alene Riots Was a Very Proper Action.

[Early Dispatches.]

Washington, June 6.—The report of the committee on military affairs, which conducted an exhaustive investigation of the Coeur d'Alene labor agitation and its exciting incidents, was submitted today, having been first approved by a majority vote of the committee, the minority favoring a substitute report, which has already appeared. The report says:

"First—The governor of Idaho, in his efforts to establish order and enforce the laws of the State, is to be commended for his fearlessness. The blind hatred excited by the mob, the consequent disturbance of public business and the reign of lawlessness, is in a fair way to be adjusted. The citizens of Idaho are to be congratulated on the removal of a dangerous cancer that had long threatened the peace of the State. The better ideas prevail as to the rights and duties of men in relation to the preservation of society, and this improved condition of affairs is in a great measure due to the conduct of the governor of that State.

"Second—The conduct of the military in the territory from the hours from May 2nd to the present amid the disturbing elements of the Coeur d'Alene, when fierce passions flamed unchecked, when no hand was raised to stay the dynamite and the murder, where the mob had been supreme, is a matter of
